

FIP - Authoring 1

Exploring Workflow Concepts

Assignment Description

Each student is required to create a four (4) page website based on the HTML/CSS templates provided in class. The subject of the website is entirely up to the student.

The design must be an HTML5 fixed-width site utilizing CSS-Grid as the primary method of layout.

Students must adhere to the layout set by the template XD file.

Students must use workflow practices as outlined in class - branches, pull requests, merges etc.

Include a well-written Readme file as part of your final submission.

Assignment Requirements

- Create a repository for your project using the correct naming convention (lastName_firstInitial_FIP)
- Use workflow practices as outlined in class - branches, commits, pull requests and merges (NEVER work directly on the main/master branch)
- Include a well-written Readme file using Markdown formatting. Be sure to include the required sections (refer to the example file for reference)

Submission

Homework must be submitted by 5PM on **Dec 5th**

- Github repo: readme.md file, master/main branch, development branch(es)
- correct structure for a web project (css, js, images and index.html, etc)
- Name the branches appropriately per feature IE **des**.tvr.artwork, **dev**.tvr.script
- Submit the repo link via FOL dropbox
- DO NOT SUBMIT ZIPPED FILES

ONLY THE MAIN BRANCH WILL BE GRADED

Additional Information

Missed tests/exams will not be rescheduled without some valid evidence of some important event over which the student has no control (e.g., Court appearance, death in the family).

Missed tests or exams, therefore, can receive a zero. The students are advised to notify the professor prior to missing the test.

Students are expected to hand in all assignments to the course instructor on the due date, and all assignments must be submitted in the format specified by the instructor (e.g., on FOL, in printed form, on a specific lab computer, etc.); assignments will not be accepted in any format other than that specified.

Late assignments will not be accepted, nor will make up test or assignments be permitted, without some valid evidence of some important event over which the student has no control (e.g., documented illness, death in the family). Missed tests or assignments, therefore, will receive a mark of zero. Late assignments and make-up tests will only be permitted following the submission of adequate documentation acceptable to the instructor (e.g., a doctor's note). Students are advised to notify the instructor prior to missing an assignment due date or a scheduled test.

Immediately upon return from an illness/absence in which a test or assignment has been missed, the student is responsible for contacting the course instructor to discuss the problem. The instructor will make arrangements for any student deemed eligible. The alternative test/assignment will be of equal value to the one missed with no grade penalty. The timeline and due dates will be determined by the course instructor.

At mid-term, any unsatisfactory results will be reported to the student.

This course may be revised by the professor with suitable notification to the students. Students are responsible for making arrangements to pick up missed handouts, assignments and course announcements from classmates.

Plagiarism (e.g., failure to acknowledge sources used, submitting another student's work under your name, or producing work for another student to submit) is a serious academic offense that shall result in appropriate penalties, to be determined at the discretion of the course professor in consultation with the chairperson of the Communication Arts division. The penalties shall range from failure of an assignment to possible failure of the course. Students shall not make the assumption that any provision will be made by the professor to permit the student to rewrite or redo failed assignments.
